ABILITIES

- ✦ Analytical Capacity
- ✦ Problem Solving
- ✦ Critical Thinking
- ✦ Adaptability
- ✦ Teamwork

LANGUAGES

Native Spanish

Basic English (Spoken, Written and Read).

EXPERIENCE

Data Engineer Jr

Lexia – AI-powered paralegal

December 2024 – April 2025

- Designed schema in PostgreSQL (tables, relationships, keys) to organize datasets and facilitate later ingestion/visualization.
- Loaded initial datasets into PostgreSQL, preparing the foundation for charts and dashboards before actual data.
- Developed interactive visualizations with D3.js (animated bars and dynamic lines) to communicate clear insights and facilitate decision-making.
- Created dashboards in Looker Studio connected to PostgreSQL, optimizing team data analysis.
- Implemented web scraping with Python and Node.js to extract public data automatically, improving efficiency; I collaborated in Scrum with daily meetings by Google Meet.

CTO – Team at Hult Prize 2025 Global Social Entrepreneurship Competition – Project: MyPersonnel 2025 (simultaneous to data engineer experience)

- Led the technical component as CTO: idea planning and technological vision of the MyPersonnel product.
- Designed complete landing page prototype in Figma.
- Participated in weekday meetings for ideation, decision-making, and document management in Google Drive; I researched basic legal aspects of the business model.

TRAINING

Higher Education

March 2023 – Ongoing

Universidad Autónoma del Perú, Villa el Salvador

COURSES & CERTIFICATIONS

- ✦ **Programmer Analyst** – U. Autónoma del Perú (Nov 2025)
- ✦ **Power BI** – Skill Centro Capacitación (Oct-Nov 2024)
- ✦ **Data Analysis with Power BI** – UPC / Becas Grupo Romero (Jan 2024)
- ✦ **Transformative Data Analytics** – UNICOC (Oct-Nov 2024)
- ✦ **Scrum Foundation Professional Certification (SFPC)** CertiProf (Oct 2024)
- ✦ **Intermediate Python Programming** – UNI (Aug 2024)

TECHNICAL KNOWLEDGE

- ✦ **Languages:** Python (advanced), JavaScript, Java, Kotlin, C#
- ✦ **Frontend:** Next.js, Bootstrap, HTML5, CSS, D3.js
- ✦ **Databases:** PostgreSQL, MongoDB, SQL Server
- ✦ **Data:** Looker Studio, Power BI, Excel avanzado
- ✦ **Cloud/Tools:** AWS (VPC, S3, Route 53), Git/GitHub, Figma
